

SEPTEMBER 2005
EMPLOYEE OF THE MONTH

SUSAN STIKE

The selection committee respectfully requests that Mrs. Susan Stike be named as Employee of the Month for September 2005. Susan has been an employee of Pulaski County Public Schools for four (4) years and is currently a para-educator at Pulaski Middle School. She previously worked with special needs students at Dublin Elementary School. Susan is a graduate of Pulaski County High School. She and her husband live in Pulaski County and have two children who attend Pulaski County Public Schools.

Susan has worked with all levels of elementary and middle school students. She has displayed both dedication and competence in handling any task she has been given. Many of her colleagues have encouraged Mrs. Stike to return to school to pursue a teaching degree.

Her nominators say that Susan's kind and caring spirit prompted the nomination for Employee of the Month. During a particularly tragic time in one of her students' lives, Mrs. Stike routinely went above and beyond the scope of her job. She cared for and nurtured this student while family members were dealing with the death of the student's primary caregiver. She helped provide the love, stability and support needed during a time of extreme grief.

Mrs. Stike's contributions to Pulaski County Public Schools' students, staff and parents reflect great credit on her and we commend her for her dedication.
