

Employee of the Month
February 2009

Paige Weaver – Technology Department

The selection committee is proud to announce that Ms. Paige Weaver has been named Employee of the Month for February 2009. Paige has been an employee of Pulaski County Public Schools for eight (8) years. She currently serves as the Database Administrator and webmaster for Pulaski County Public Schools.

Paige defines the phrase “grace under pressure.” She is dedicated, hardworking, efficient, and patient when providing assistance to others. Ms. Weaver supports numerous programs, coordinates network and email accounts, and develops and maintains web sites for the county, school system, and library system. Paige has worked diligently to implement PowerSchool and PowerTeacher, our new operating system. This critical effort requires an enormous amount of time and effort to prepare for the set-up and transfer of information. Paige does an excellent job with all of these tasks, and still manages to be friendly to everyone.

Ms Weaver’s hard work and patience combined with her intellect is a reason that Pulaski County is on the cutting edge in the area of technology.
