Becky Hedrick - Critzer Elementary

Mrs. Becky Hedrick is a paraprofessional at Critzer Elementary who is working with a Special Education student. This student faces challenges on a daily basis with his disability and is fortunate to have someone smooth the road for him and modify his classroom assignments to his unique needs. She does this effortlessly and has for years. She makes sure the SOL content is presented in a way the he can master and pass his SOL tests. Her positive attitude toward her job gives everyone she comes in contact with a boost. This student's success is directly related to her dedication. There are not many para's who go to so much trouble to provide for their charges.
