

Administrative Professionals Week/Day April 2002

In honor of **Administrative Professionals Week/Day**, Pulaski County Public Schools would like to extend their gratitude to the many secretaries that go above and beyond the call of duty each day. The children of Pulaski County are fortunate to have the dedicated and caring individuals occupying the front offices of our schools and the central school board office. Please join us this week and let our secretaries know how appreciated they are.

To learn more about the history of **Administrative Professionals Week/Day** visit the [International Association of Administrative Professionals](#) website.
