

**School Library Media Month**  
**April 2002**

In honor of School Library Media Month, Pulaski County Public Schools would like to take this opportunity to thank our dedicated librarians and media specialists. Members of our libraries and media centers provide resources for teachers and students that encourage reading and supplement classroom learning. Stop by your school's library to say "thanks for a job well done!"

To learn more about this month of celebration and school librarians visit the [American Association of School Librarians](#) website.
